Effective Communication Strategies for Alzheimer's at Effingham Public Library

The Suzette Brumleve Memorial Effingham Public Library is pleased to partner with the Alzheimer's Association Illinois Chapter on Tuesday, November 19 at 6 p.m. in the Workman Room for a program on effective communication strategies for Alzheimer's.

Communication is more than just talking and listening – it's also about sending and receiving messages through attitude, tone of voice, facial expressions and body language. As people with Alzheimer's disease and other dementias progress in their journey, the ability to use words is lost, and families need new ways to connect.

Join Rose Ruholl, to explore how communication takes place when someone has Alzheimer's, learn to decode the verbal and behavioral messages delivered by someone with dementia, and identify strategies to help you connect and communicate at each stage of the disease.

This program is 1.5 hours, which includes time for questions and answers.

Registration is required for this free event. Call (21&) 342 2464 x. 1 or go online to effinghamlibrary.org
